Membership Agreement

Priority Shippers' Association is a not for profit shippers' association. Our members are directly listed as affiliates to the Association contracts and the shipper or consignee of record on the bill of lading. Priority Shippers' Association provides rate management tools and professional procurement services; we collaborate with you to even the playing field so that you can buy direct from carriers to improve service and lower your costs.

We believe we have developed a better model compared to competing alternatives and that is one of the reasons why we charge ZERO upfront costs to join and we require no minimum volume commitments from you. You support the Association by paying the association fee on a per shipment basis when you ship cargo under your Priority Shippers' Association contract. The Association fee is transparent and itemized in the online rate tool as a separate fee that is added to your total cost.

To apply for and maintain a membership in good standing, Applicant (defined and identified fully by name, address, e-mail, telephone and initial authorized individual herein below) agrees to the Membership Terms and Conditions in the Association and the By-Laws which are available upon request. These documents were drafted by our attorney to cover many possible situations that may or may not apply to your situation. We believe the proceeding paragraphs accurately represent our agreement to work as a not for profit Association in service to our members and have those members support the Association by paying the Association fee. To the extent the legalese in our Terms or By-Laws conflicts with that, then we revert to this document.
